# Thank You Mr. Truesdale!

We are so thankful for Mr. Truesdale's leadership as school director over the past two years - through good times, hard times, and COVID!

Your insight on early childhood education and compassion for our children, families, and staff have helped us grow together as an organization. Thank you for all you have done for our community, and we wish you the best in your next endeavors.

We agree with you, Mr. Truesdale, it is not a goodbye but a see you later!

## Learning Tip of the Month

Do **science** every day!

Science is far more than a set of concepts about properties and living things - it is a dynamic, creative, and social process of inquiry. We wonder, ask questions, explore and observe, talk about findings and generate and share ideas!

Young children learn science by actively doing it! Science doesn't have to take place in a lab with fancy equipment - it can be learned and seen anywhere! You can talk about science everywhere - even doing everyday activities, such as running errands:

- At the grocery store - talk about familiar and unfamiliar fruits
- Notice the variety of plants at the park
- Compare the sizes and shapes of buildings you pass by
