## Important Dates in September

- September 5th - Labor Day (School Closed).
- September 29th-September 30th ( Parent Policy Council Elections).

## Parent Café:

Cafés are physically and emotionally safe spaces where families talk and listen to each other on topics that matter to them, such as the challenges and victories of raising a family, navigating landscapes of inequality, enhancing well-being, or being involved in the recovery process of someone they love. Through individual deep self-reflection and peer-to-peer learning, families explore their strengths, learn about the Protective Factors, and create strategies from their own wisdom and experiences to strengthen their families. Families leave Cafés feeling inspired, energized, and excited to put into practice what they've learned. Interested in learning more? Please contact your Family Engagement Specialist.

## Happy 10 Year Anniversary

Last month, we welcomed our new and returning students back to the school after they celebrated summer break. From finding classrooms to letting mommy go for the first time, we focused on making our families and students feel safe and at home.

The staff also enjoyed a one-week break and returned to school with professional development training, from CPR training to personal wellness. The team ended the month with an Educare DC 2022 reunion where we celebrated Educare's 10-year anniversary with the staff. This Reunion consisted of activities, delicious food, and team building.

Jamal Berry & Talia Newman attended the UCLA Head Start Management Fellows program in July. This is an intensive leadership and management development training session for directors and managers who provide comprehensive services to economically disadvantaged children and their families each day. The two will bring what they have learned into this new school year.

## Learning Tip of the Month

"Any idea, plan, or purpose can be placed in the mind through repetition" - Napoleon Hill

This learning tip is essential for our early learners because repetition allows students to form an understanding and attempt to imitate words, actions, and skillsets.

Getting students in a routine of learning through repetition can help them to gain positive habits that will last a lifetime.

We can model these educational skills by reading everyday and allowing students to take turns.
